## "Historic" Lewistown Offers Varied Sites

---

"Historic" Lewistown, the capital of Spoon River Country, offers many points of interest for both tourists and residents.

Lewistown was founded in 1821 by Ossian Ross and named for his son. In 1823, Lewistown, became the county seat of the newly created Fulton County, which extended to the Wisconsin border.

**The Lewistown and Fulton County Visitors Center** features a one of a kind large scale map of Fulton County, informational panels on Fulton County's three largest communities, all you need to know about the Spoon River Valley Scenic Drive, and the different outdoor opportunities Fulton County has to offer. Acting as a Community Center as well, the Visitor Center is equipped with a fully functioning kitchen, conference tables and chairs and a projector system, for your business or organizations meetings or events.

**The Fulton County Courthouse** is the fourth to serve the county. Built of logs in 1823, the courthouse was replaced by a frame building in 1830. The third structure, built of bricks in 1836, had a portico of four stone columns. Burned by an arsonist on December 13, 1894, the courthouse has two of the columns re-erected in Oak Hill Cemetery in front of the Civil War Monument. The present courthouse was built in 1897 and remodeled during the 1970's.

**Major Newton Walker Home** designed and built by Walker in 1851. Walker was born in Virginia in 1803 and by the age of 21 was a Major in the Virginia Militia. Besides being a distinguished soldier, Walker was also an architect, farmer, merchant, and politician. As an Architect, he designed and supervised the construction of the third Fulton County Courthouse which opened in 1838. As a politician he served two terms in the Illinois General Assembly where he formed a close friendship with Abraham Lincoln, who visited him at this home on several occasions.

**St. James Episcopal Church** was built in Gothic style in 1863, at a time when the Greek Revival style predominated in architecture. St. James is listed on the national Register of Historic Places and has been called "the most perfect and beautiful of its kind in America."

**First Presbyterian Church** founded in 1828, was built in 1856. The daughter of a former pastor of the church was Lila Acheson Wallace, cofounder and coeditor of the Reader's Digest. The First Presbyterian Church is located at 101 N. Main St.

**The Rasmussen Blacksmith Shop** was opened by Nels R. Rasmussen in 1880 and operated by the family until 1969. It was then acquired by the Lewistown Society for Historical Preservation with its contents intact. The society operates the building as a museum and its open by appointment, and during the Spoon River Valley Scenic Drive.

**The Old Narrow Gauge Railroad Depot** is being renovated. From 1880 until the 1940's, the Fulton County Narrow Gauge Railway ran between Havana and Galesburg and had 180 curves in its 60-mile length.

**Oak Hill Cemetery** has two distinct identities. While serving as the actual cemetery for the town of Lewistown for over 150 years; it is a 'world famous' fictional cemetery since it is the setting for Edgar Lee Master's Spoon River Anthology. These poetic monologues in the form of epitaphs of 244 former inhabitants of Spoon River "all sleeping on the hill" brought instant fame to Masters.

---
