- A. Approve Ordinance Providing for the Regulation of and Application for Small Wireless Facilities. – On June 1 a law passed and will take effect August 1 that will allow wireless businesses to put up antennas the size of small refrigerators on poles in the city. The city of Lewistown needs to have an ordinance to prevent these antennas from being put on the poles. This ordinance will require them to get a permit from the city and pay the fee. The City can regulate but can not deny them from putting them up. Chicago is exempt from this Ordinance. Attorney Collins did a superb job of writing the ordinance according to the Mayor. The antennas will be for 5 G for wireless 10 times faster than 4 G. Attorney Collins states they will be putting up 100's of thousands in the state.
